

EMMANUEL SIELE

COMPUTER SCIENTIST

PROFILE

Passionate and results-driven Web Developer, Designer, and Computer Scientist with a strong background in creating functional, user-friendly, and visually appealing digital solutions. Adept at transforming complex problems into intuitive, scalable, and high-performance web applications. Proficient in modern web technologies, UI/UX principles, and full-stack development. Currently exploring and developing projects in Android development. Committed to continuous learning, innovation, and delivering exceptional user experiences. I excel at fostering collaboration, resolving team conflicts, and ensuring smooth communication between developers and stakeholders.

TECHNICAL EXPERIENCE

• Full-Stack Web Development

- Designed and developed scalable, high-performance websites with a focus on accessibility and user experience.
- Built responsive front-end interfaces using HTML, CSS and Vanilla JavaScript. Secured backend with PHP and MySQL.
- Implemented image detection with COCO-SSD and built stock prediction models. Developed NLP chatbots using wit.ai and JavaScript-based AI. Integrated TensorFlow.js for browser-based AI applications.
- Designed secure e-commerce platforms with payment gateway integration. Built a marketplace scanner for image-based price detection.

• Android Development

- Built Android apps in Kotlin and explored Flutter for cross-platform development. Created OmniCare, an AI-powered assistant for the physically challenged. Integrated Firebase for authentication and real-time cloud syncing.

• Machine Learning

- Developed ML models for a stock prediction website, utilizing time-series analysis and algorithms for forecast prices and trends, enhancing user experience.

EDUCATION

2023 - 2026

KISII UNIVERSITY

- Bachelor of Computer Science
- GPA: ongoing

2018-2022

KERICHO HIGH SCHOOL

- B

SKILLS

Frontend: HTML, CSS, JS and React

Backend: Node.js, PHP, Python

Cloud: MYSQL

Tools: Git, TensaFlow.js, CMS(Wordpress)

Mobile: Kotlin, Flutter (ongoing)

PROJECTS

- **E-commerce Platform** – Developed a fully functional e-commerce website with secure payment integration.
- **Company Branding Website** – Designed and built an engaging corporate identity website for a client.
- **Android Mobile App** (Ongoing) – Currently working on an Android application using Kotlin/Flutter.
- A Smart and Efficient **Point of Sale System** for Agrovet Businesses to Manage Sales, Inventory, Customers, and Reporting with Ease
- Developed a comprehensive School ERP System for managing and administrative tasks.
